52+ DATABASE MODELS

VERCEL + SUPABASE

Bahasa Indonesia education needs a digital-native platform

The Problem

- ✗ 50M+ students with limited creative outlets for language learning
- ✗ Teachers manually grading 150+ student works with no tools
- ✗ No marketplace for teacher-created RPP, modul, and soal
- ✗ Zero gamification in existing learning platforms

Our Solution

- ✓ Social-style portfolio with likes, comments, and featured picks
- ✓ AI-powered grading + bulk scoring + auto-rapor (A-E)
- ✓ Marketplace with 80/20 commission + Midtrans payments
- ✓ Coin Cerdas economy + weekly leagues + real-time battle

Massive & Underserved Market

Indonesia has the 4th largest education system globally with mandatory Bahasa Indonesia curriculum at every level.

53.1M

Students (SD–SMA)
Kemendikbud 2024

4.2M

Teachers
Potential creators & buyers

\$2.1B

EdTech Spend (2026)
25% YoY growth

TAM / SAM / SOM

TAM — All language learners in Indonesia	\$850M
SAM — Digital-native Bahasa learning	\$210M
SOM — Social-creative segment	\$42M

Revenue Model

Premium Guru (SaaS B2C)	Rp 49K/mo
Premium Murid (SaaS B2C)	Rp 15K/mo
Marketplace Commission	15% take rate
School B2B Licensing	Rp 5M–25M/yr
Seminars, Ads & API	Rp 623M/mo (M18)

A Social Network for Creative Writing

Students don't just learn Bahasa Indonesia — they publish, share, and compete with their writing.

Portfolio

Behance-style showcase for puisi, cerpen, artikel, anekdot, pantun, opini

Coin Economy

Earn coins for writing, likes, comments. Spend on XP boosts, streak freezes, frames

Real-Time Battle

Socket.io-powered quiz battles: Adu Cepat matchmaking, Kuis Tempur, Tebak Kata

League System

Weekly leagues (Bronze→Diamond). 30 peers, promote/demote, XP rankings

Daily Quests

Menulis, Mengomentari, Memberi Like

AI Ilustrasi

Auto-generate images for learning content

Store Items

7+ items: streak freeze, XP boost, frames, themes

The Complete Teaching Operating System

From lesson planning to grading to selling — everything in one platform.

Buku Panduan Digital

72 BAB

12 grade-levels (VII–XII), each with Belajar → Latihan → Praktik → Kuis. Assign to classes with deadlines.

AI Bank Soal

GPT-4O

Generate 5 PG soal instantly with AI. Manual create. Difficulty + KD selectors. Group into sets.

Scoring & Gradebook

A–E

Bulk input, per-kategori grading, kuis review, printable rapor with predikat. CSV export.

Karya Feed & Grading

★ NILAI

See student karya by class. Like, comment, assign scores. Star featured works.

Marketplace

80/20

Sell RPP, Modul, PPT, Soal, Video, Ebook. Midtrans payments. 3 free uploads, unlimited for premium.

Notifications

REAL-TIME

In-app notifications for likes, comments, new karya from students.

Modern, Scalable Architecture

Built for scale from day one with a serverless-first approach.

Frontend

Next.js 16, TypeScript, Tailwind, Server Components, App Router

Backend

Supabase Auth + PostgreSQL, Prisma ORM, REST API, Server Actions

Real-Time

Socket.io (VPS), NGINX reverse proxy, auto-matchmaking queue

Infrastructure

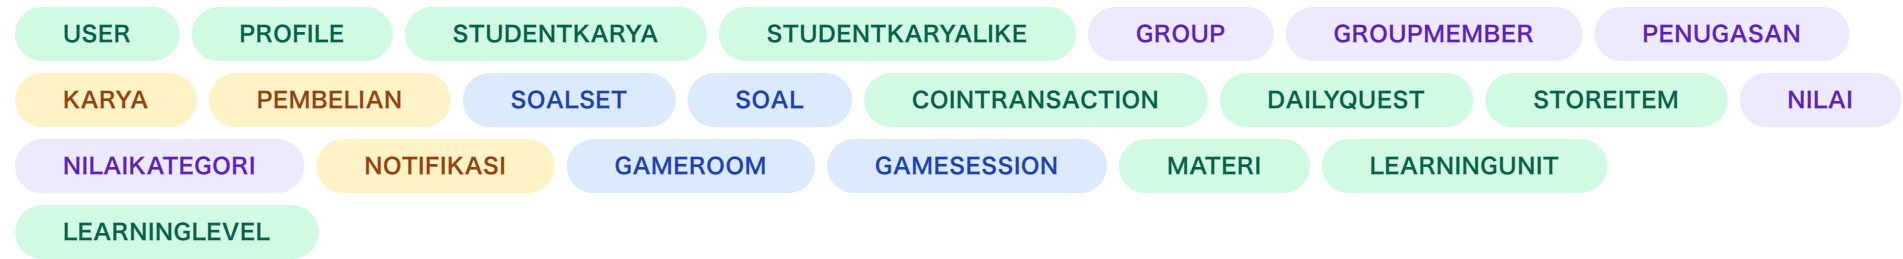

Hosting: Vercel (frontend) + Hostinger VPS (game server)

Payments: Midtrans (BNI, Mandiri, BRI, BCA, GoPay, QRIS)

Storage: Supabase Storage with 50MB file limit

AI: DeepSeek + Groq + Anthropic for soal generation & ilustrasi

BahasaCerdas is the only platform combining social-creative learning with a teacher marketplace — hyper-focused on Bahasa Indonesia.

Growth Strategy — 3 Phases

Phase 1: Launch

Q3 2026 · 5K users

- Teacher pilot with 50 schools in Jawa Timur
- Free marketplace uploads to seed content
- Referral program: teacher invites → bonus XP
- Sosial media: TikTok challenges (#CerpenBC)

Phase 2: Scale

Q1 2027 · 50K users

- School licensing deals (B2B sales team)
- Premium push: free trial → conversion funnel
- Creator economy: top teachers earn >Rp 5M/mo
- Featured content curation by admin

Phase 3: Dominate

Q3 2027 · 500K+ users

- Integration with Kemendikbud platform
- Mobile apps (Flutter/React Native)
- Push notifications & real-time chat
- Regional language modules (Jawa, Sunda, etc.)

Built by Engineers Who Understand Education

Core Team

Dominikus

Full-Stack · Next.js · Supabase · Arkitetura

Alex

Product · Content · Kurikulum · Bahasa Indonesia

Advisors

- Experienced educators from Jawa Timur
- Curriculum experts from Kemdikbud network

Next 90 Days

Week 1-4 Content enrichment — 200+ more latihan/kuis per bab

Week 5-8 Guru video content — upload & embed YouTube

Week 9-12 Push notifications — browser push API

Ongoing Mobile app, admin dashboard, game server SSL
